EXAMINER'S AMENDMENT/PRIORITY ACTION

STRICT DEADLINE TO RESPOND TO THIS LETTER

TO AVOID ABANDONMENT OF APPLICANT'S TRADEMARK APPLICATION, THE USPTO MUST RECEIVE APPLICANT'S COMPLETE RESPONSE TO THIS LETTER **WITHIN 6 MONTHS** OF THE ISSUE/MAILING DATE BELOW.

ISSUE/MAILING DATE: 2/4/2013

PRIORITY ACTION

DATABASE SEARCH: The trademark examining attorney has searched the USPTO's database of registered and pending marks and has found no conflicting marks that would bar registration under Trademark Act Section 2(d). TMEP §704.02; *see* 15 U.S.C. §1052(d).

ISSUES APPLICANT MUST ADDRESS: On February 4, 2013, the trademark examining attorney and James Muraff discussed the issues below. Applicant must timely respond to these issues. *See* 15 U.S.C. §1062(b); 37 C.F.R. §2.62(a); TMEP §§708, 711.

Summary of Issues that Applicant Must Address

1. Requirement to Clarify the Identification of Services
2. Multiple Class Requirements
3. Disclaimer Requirement

Requirement to Clarify the Identification of Services

The wording "Blu-ray" in the identification of services is a registered mark not owned by applicant. See enclosed copy of U.S. Registration Nos. 2901104, 3657054, 4039248 and 4039249 at Attachment 1. An applicant may not use a registered mark owned by another party in the identification. A registered mark indicates origin in one party and cannot be used to define goods or services that originate in a party other than the registrant. TMEP §1402.09; *see Camloc Fastener Corp. v. Grant*, 119 USPQ 264, 264 n.1 (TTAB 1958).

Therefore, applicant must amend the identification of services to delete each instance of the wording "Blu-ray" and substitute the common commercial or generic name of the goods, *e.g.*, "optical and magneto-optical disc" players.

The wording "Secure delivery services in the field of tickets via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or Blu-ray players" in the identification of services is indefinite and must be amended to clarify that applicant is offering "secure *electronic* delivery services," in order to enable proper classification. *See* TMEP §1402.01. Please note that such services are properly classified in International Class 38.

The wording "Booking of seats for shows, travel and sports events" in the identification of services is unacceptable because it identifies services in more than one international class. *See* TMEP §1402.01. Specifically, "booking of seats for shows and sports events" identifies services in International Class 41 and "booking for seats for travel" identifies services in International Class 39. Applicant must amend the current wording to classify the services in the appropriate international classes.

Applicant has classified "Entertainment ticket agency services" in International Class 35; however, the proper classification is International Class 41. Therefore, applicant must either (1) add International Class 41 to the application and reclassify these services in the proper international class, or (2) delete the wording "Entertainment ticket agency services" from the application. *See* 37 C.F.R. §§2.86, 6.1; TMEP §§1403 *et seq.* If applicant adds one or more international classes to the application, applicant must comply with the multiple-class requirements specified in this Office action.

The wording "On-line entertainment ticket agency services and secure delivery services" in the identification of services is unacceptable because this wording could identify services in more than one international class. *See* TMEP §1402.01. For example, it could identify "On-line entertainment ticket agency services" in International Class 41 and "online secure delivery of data by electronic transmission" in International Class 38. Therefore, applicant must clarify the nature of the secure delivery services and classify all of the services in the appropriate international classes.

The wording "Providing ticket and consumer product reservation services and secure delivery services" in the identification of services is unacceptable because this wording could identify services in more than one international class. *See* TMEP §1402.01. For example, the wording "Providing ticket and consumer product reservation services" could identify "providing rental car reservation and travel ticket reservation services" in International Class 39 and "providing ticket reservation services for entertainment, sporting and cultural events" in International Class 41. Applicant must more specifically identify the types of "ticket[s]" and "consumer product[s]" for which it provides reservation

services to allow for proper classification of the services. In addition, the wording “secure delivery services” could identify “secure delivery of goods by truck” in International Class 39 and “secure delivery of data by electronic transmission” in International Class 38. Therefore, applicant must also further specify the nature of the secure delivery services to enable proper classification of those services.

The wording “Computerized on-line ordering, reservation and secure delivery services in the field of tickets, namely, movie tickets, sporting event tickets, theater tickets, Broadway tickets, attraction tickets, museum tickets, state fair tickets and concert tickets via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or Blu-ray players” in the identification of services is unacceptable because this wording could identify services in more than one international class. *See* TMEP §1402.01. *See* TMEP §1402.01. For example, “Computerized on-line ordering services in the field of tickets, namely, movie tickets, sporting event tickets, theater tickets, Broadway tickets, attraction tickets, museum tickets, state fair tickets and concert tickets via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or *optical and magneto-optical disc* players” identifies services in International Class 35, “Computerized on-line reservation services in the field of *entertainment* tickets, namely, movie tickets, sporting event tickets, theater tickets, Broadway tickets, attraction tickets, museum tickets, state fair tickets and concert tickets via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or *optical and magneto-optical disc* players” identifies services in International Class 41 and “Computerized, on-line secure *electronic* delivery services in the field of tickets, namely, movie tickets, sporting event tickets, theater tickets, Broadway tickets, attraction tickets, museum tickets, state fair tickets and concert tickets via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or *optical and magneto-optical disc* players” identifies services in International Class 38. Therefore, applicant must clarify the nature of each of the services and classify the services in the appropriate international classes.

Applicant has classified “Providing information in the field of entertainment via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or Blu-ray players” in International Class 35; however, the proper classification is International Class 41. Therefore, applicant must either (1) add International Class 41 to the application and reclassify these services in the proper international class, or (2) delete this wording from the application. *See* 37 C.F.R. §§2.86, 6.1; TMEP §§1403 *et seq.* If applicant adds one or more international classes to the application, applicant must comply with the multiple-class requirements specified in this Office action. Applicant must also replace the registered mark “Blu-ray” with the generic term for the goods, as explained above.

The wording “Computerized online search service in the field of entertainment” in the identification of services is indefinite and must be amended to further clarify the nature of the “search service” to enable proper classification. *See* TMEP §1402.01.

Applicant may adopt the following identification of services, if accurate:

International Class 35: Computerized and/or automated on-line retail store services in the field of tickets, namely, movie tickets, sporting event tickets, theater tickets, Broadway tickets, attraction tickets, museum tickets, state fair tickets and concert tickets, via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or **optical and magneto-optical disc** players; Computerized on-line **ordering** services in the field of tickets, namely, movie tickets, sporting event tickets, theater tickets, Broadway tickets, attraction tickets, museum tickets, state fair tickets and concert tickets via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or **optical and magneto-optical disc** players

International Class 38: Secure **electronic** delivery services in the field of tickets via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or **optical and magneto-optical disc** players; secure delivery services, **namely, online secure delivery of data by electronic transmission**; Computerized, on-line secure **electronic delivery** services in the field of tickets, namely, movie tickets, sporting event tickets, theater tickets, Broadway tickets, attraction tickets, museum tickets, state fair tickets and concert tickets via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or **optical and magneto-optical disc** players

International Class 39: Booking of seats for **travel**

International Class 41: Booking of seats for shows **and** sports events; Entertainment ticket agency services; On-line entertainment ticket agency services; Computerized on-line **reservation** services in the field of **entertainment** tickets, namely, movie tickets, sporting event tickets, theater tickets, Broadway tickets, attraction tickets, museum tickets, state fair tickets and concert tickets via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or **optical and magneto-optical disc** players; Providing information in the field of entertainment via an interactive global computer network, networked kiosks, computers, mobile devices, game consoles, app-enabled TVs, and/or **optical and magneto-optical disc** players

International Class 42: Computerized online search service in the field of entertainment, **namely, providing a search engine for obtaining entertainment information on a global computer network**

An applicant may amend an identification of services only to clarify or limit the services; adding to or broadening the scope of the services is not permitted. 37 C.F.R. §2.71(a); *see* TMEP §§1402.06 *et seq.*, 1402.07 *et seq.*

For assistance with identifying and classifying services in trademark applications, please see the USPTO's online searchable *U.S. Acceptable Identification of Goods and Services Manual* at <http://tess2.uspto.gov/netahtml/tidm.html>. See TMEP §1402.04.

Multiple Class Requirements – Section 1(b) Basis

Applicant must clarify the number of classes for which registration is sought.

If applicant adopts the suggested amendment of the services, then applicant must amend the classification to International Classes 35, 38, 39, 41 and 42. See 37 C.F.R. §§2.32(a)(7), 2.85; TMEP §§805, 1401.

For an application with more than one international class, called a “multiple-class application,” an applicant must meet all the requirements below for those international classes based on an intent to use the mark in commerce under Trademark Act Section 1(b):

- (1) LIST SERVICES BY INTERNATIONAL CLASS: Applicant must list the services by international class.
- (2) PROVIDE FEES FOR ALL INTERNATIONAL CLASSES: Applicant must submit an application filing fee for each international class of services not covered by the fee(s) already paid (confirm current fee information at http://www.uspto.gov/trademarks/tm_fee_info.jsp).

See 15 U.S.C. §§1051(b), 1112, 1126(e); 37 C.F.R. §§2.34(a)(2)–(3), 2.86(a); TMEP §§1403.01, 1403.02(c).

Disclaimer Requirement

Applicant must disclaim the descriptive wording “TICKETS” apart from the mark as shown because it merely describes a feature or characteristic of applicant's services. See 15 U.S.C. §§1052(e)(1), 1056(a); *DuoProSS Meditech Corp. v. Inviro Med. Devices, Ltd.*, ___ F.3d ___, 103 USPQ2d 1753, 1755 (Fed. Cir. 2012) (quoting *In re Oppedahl & Larson LLP*, 373 F.3d 1171, 1173, 71 USPQ2d 1370, 1371 (Fed. Cir. 2004)); *In re Steelbuilding.com*, 415 F.3d 1293, 1297, 75 USPQ2d 1420, 1421 (Fed. Cir. 2005); TMEP §§1213, 1213.03(a).

Attachment 2 comprises an entry from the Collins English Dictionary, which shows that “ticket” means “a piece of paper, cardboard, etc, showing that the holder is entitled to certain rights, such as travel on a train or bus, entry to a place of public entertainment, etc.” Please also see the Wikipedia entry for “electronic ticket” at Attachment 3, which indicates that in today's marketplace, travel and entertainment tickets are commonly issued in digital form. Therefore, the wording “TICKETS” in the mark merely describes a feature or characteristic of the services, namely, that applicant's retail store, online ordering, booking, reservation, ticket agency, secure delivery, and online search services pertain to paper or digital proof that the holder is entitled to certain rights.

The identification of services supports the disclaimer requirement, as it specifically indicates that the services pertain to “tickets.” The term is merely descriptive of a characteristic of each of applicant's services, even for those services whose description does not explicitly include the word “tickets.” For example, “booking of seats for travel” comprises booking tickets that give the ticketholder a seat for transportation, such as a seat on a bus, train or plane. And “computerized online search service in the field of entertainment” would encompass an online search service in the field of entertainment tickets.

A “disclaimer” is a statement in the application record that applicant does not claim exclusive rights to an unregistrable component of a mark; a disclaimer does not affect the appearance of the mark or physically remove disclaimed matter from the mark. TMEP §§1213, 1213.10. An unregistrable component of a mark includes wording and designs that are merely descriptive of an applicant's goods and/or services. 15 U.S.C. §1052(e); see TMEP §§1209.03(f), 1213.03 *et seq.* Such words or designs need to be freely available for other businesses to market comparable goods or services and should not become the proprietary domain of any one party. See *Dena Corp. v. Belvedere Int'l, Inc.*, 950 F.2d 1555, 1560, 21 USPQ2d 1047, 1051 (Fed. Cir. 1991); *In re Aug. Storck KG*, 218 USPQ 823, 825 (TTAB 1983).

Applicant may submit the following standardized format for a disclaimer:

No claim is made to the exclusive right to use “TICKETS” apart from the mark as shown.

TMEP §1213.08(a)(i); see *In re Owatonna Tool Co.*, 231 USPQ 493 (Comm'r Pats. 1983).

Electronic ticket

From Wikipedia, the free encyclopedia

"E-ticket" redirects here. For the former Disneyland and Disney World tickets, see [E ticket](#).

An **electronic ticket** (commonly abbreviated as **e-ticket**) is a digital ticket. It may be issued by an airline, in road, urban or rail **public transport**, and in entertainment.

Contents [hide]

Airline ticket

[\[edit\]](#)

In the case of an airline ticket the e-ticket rapidly replaced the older multi-layered paper tickets (from close to zero to 100% in about 10 years) and became mandatory for IATA members as from June 1, 2008. During the last few years, where paper tickets were still available, airlines frequently charged extra for issuing them.

Once a reservation is made, an e-ticket exists only as a digital record in the [airline computers](#). Customers usually print out or are provided a copy of their e-ticket itinerary receipt which contains the [record locator](#) or reservation number and the e-ticket number. It is also possible to print multiple copies of an e-ticket itinerary receipt, hence the "loss" of an airline ticket becomes impossible.

While e-ticket itinerary receipts may at first glance look like a basic itinerary, they contain a number of other features that distinguish them. These same features are found on a paper ticket.

- E-tickets, like their paper counterparts, will contain an official ticket number (including the airline's 3-digit ticketing code,^[1] a 4-digit form number, a 6-digit serial number, and sometimes a check digit).
- Carriage terms and conditions. (or at least a reference to them)
- Fare and tax details, including fare calculation details and some additional data such as tour codes. The exact cost might not be stated, but a "fare basis" code will always identify the fare used.
- A short summary of fare restrictions, usually specifying only whether change or refund are permitted but not the penalties to which they are subject.
- Form of payment.
- Issuing office.
- Baggage allowance.

Joel R. Goheen is recognized as the inventor of electronic ticketing in the airline industry.^[1] See Patents for Electronic Ticketing Inventions in the Airline Industry.

A sample itinerary for an [open jaw](#) electronic ticket from Montreal to Amsterdam, and returning from Munich

To check in with an e-ticket, the passenger usually goes to the [check-in](#) counter and presents a government-issued ID, credit card or the e-ticket itinerary receipt which contains a confirmation or reservation code. Theoretically it is not even necessary to present the e-ticket itinerary receipt document or quote the confirmation code or e-ticket number as the reservation is confirmed solely on the basis of the passenger's identity, which may be proven by a passport or the matching credit card. However, producing a print-out of the itinerary receipt is required to enter the terminal of some airports as well as to satisfy immigration policies in most countries.

The rest of the check-in process remains the same as when paper tickets were the norm, that is, the passenger checks-in his/her luggage. The e-ticket is not a substitute for the [boarding pass](#), which must still be issued at the end of the check-in process. However the advent of an e-ticket allows different enhancements to checking-in.

Self-service and remote check-in

[[edit](#)]

- online/telephone/self-service kiosk [check-in](#) (if the airline makes this option available)
- early check-in
- printing boarding passes at airport kiosks and at locations other than an airport
- delivery of boarding pass barcodes via SMS or email to a mobile device

Several web sites exist to help people holding e-tickets accomplish online check-ins in advance of the twenty-four-hour airline restriction. These sites store a passenger's flight information and then when the airline opens up for online check-in the data is transferred to the airline and the boarding pass is emailed back to the customer. With this e-ticket technology, if a passenger receives his boarding pass remotely and is travelling without check-in luggage, he may bypass traditional counter check-in.

E-ticket limitations

[[edit](#)]

This section **does not cite any references or sources**. Please help improve this section by [adding citations to reliable sources](#). Unsourced material may be challenged and [removed](#). *(November 2007)*

The ticketing systems of most airlines are only able to produce e-tickets for itineraries of no more than 16 segments, including surface segments. This is the same limit that applied to paper tickets.

IATA mandated transition

[[edit](#)]

As part of the [IATA Simplifying the Business](#) initiative, the association instituted a program to switch the industry to 100% electronic ticketing. The program concluded on June 1, 2008, with the association saying that the resulting industry savings were approximately US\$3 billion.^[2]

In 2004, IATA Board of Governors set the end of 2007 as the deadline for airlines to make the transition to 100% electronic ticketing for tickets processed through the IATA billing and settlement plan.^[3] In June 2007, the deadline was extended to May 31, 2008.^[4]

As of June 1, 2008 paper tickets can no longer be issued on neutral stock by agencies reporting to their local [BSP](#). Agents reporting to the [ARC](#) using company-provided stock or issuing tickets on behalf of an airline ([GSAs](#) and ticketing offices) are not subject to that restriction.

The industry was unable to comply with the IATA mandate and paper tickets remain in circulation as of February 2009.^[*citation needed*]

Train tickets

[[edit](#)]

[Amtrak](#) started offering electronic tickets on all train routes on 30 July 2012.^[5] These tickets can be ordered over the internet and printed (as a PDF file), printed at a Quik-Trak kiosk, or at the ticket counter at the station. Electronic tickets can also be held in a smart phone and shown to the conductor using an app.

Subject: Notice of Pseudo Mark for Serial Number: 85744342
ATTORNEY REFERENCE NUMBER: 19638.23T1

The USPTO may assign pseudo marks, as appropriate, to new applications to assist in searching the USPTO database for conflicting marks. They have no legal significance and will not appear on the registration certificate.

A PSEUDO MARK may be assigned to marks that include words, numbers, compound words, symbols, or acronyms that can have alternative spellings or meanings. For example, if the mark comprises the words 'YOU ARE' surrounded by a design of a box, the pseudo mark field in the USPTO database would display the mark as 'YOU ARE SQUARE'. A mark filed as 'URGR8' would receive a pseudo mark of 'YOU ARE GREAT'.

Response to this notice is not required; however, to suggest additions or changes to the pseudo mark assigned to your mark, please e-mail TMDesignCodeComments@USPTO.GOV. You **must** reference your application serial number within your request. The USPTO will review the proposal and update the record, if appropriate. For questions, please call 1-800-786-9199 to speak to a Customer Service representative.

The USPTO will not send any further response to your e-mail. Check TESS in approximately two weeks to see if the requested changes have been entered. Requests deemed unnecessary or inappropriate will not be entered.

Pseudo marks assigned to the referenced serial number are listed below.
