

# TSB---Empty-Case-Setup

Sayali Kothari  
Contractor

## Empty Case

**Date Issued: 5-25-2011**

**Date Updated: 3/9/2012**

**Description:** This is a walk through labeling empty cases for vending; and loading these cases through the Inventory Management screen will put these into inventory.

### **1.Empty Case setup**

Here is a picture of an empty case with a barcode

Notice how the label is placed where a DVD would normally sit

Putting label on an angle allows the camera to read the barcode easier.

## 2.Putting Empty cases into Kiosk

This image shows what the case will look like on the rental application..

Log into the Field Maintenance Application and then hit the Inventory Management button. Then hit the Insert Disc button and put Replacement Case through the vend door.

How the Replacement Case looks in the Rental Application.

Example of when the Rental Case is selected from Rental Application.

Example of Replacement Case in the "Your Cart" screen.

**Tools/Parts Needed:** Barcodes, Empty Cases
